

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF BARTONVILLE LAKE)	
ACRES, INC., TO ABANDON THE SYSTEM)	CASE NO. 95-174

O R D E R

On April 3, 1995, Bartonville Lake Acres, Inc. ("Bartonville") filed its annual report with the Commission. Included with its annual report was a note signed by Lewis D. Tate, Bartonville's owner, informing the Commission that:

Due to the completion of the City of Monticello Water Division installed within the Bartonville Lake Acres Inc. and serving same with water, we will terminate this service as of March 31, 1995.

The Commission treated this note as an application by Bartonville to abandon its water distribution system.

On April 21, 1995, the Commission requested certain information from Bartonville. Bartonville responded to the Commission's request on April 27, 1995. At that time, Bartonville informed the Commission that of its ten customers, six had not yet connected to the Monticello Utility Commission's ("Monticello") new lines. Bartonville did not intend to discontinue service to those customers, but hoped that by the end of May the connections to Monticello's system would have been made.

IT IS ORDERED that Bartonville shall file the original and 12 copies of the following information with the Commission with a copy to all parties of record no later than June 30, 1995. Bartonville shall furnish with each response the name of the witness who will

be available to respond to questions concerning each item of information requested should a public hearing be scheduled.

1. Has Monticello begun to provide water service to all of the customers of Bartonville? If not, explain the present situation regarding such service.

2. Has Bartonville ceased to furnish water to the public for compensation?

3. Does Bartonville intend to use its system for any purpose other than the personal use of its owner?

Done at Frankfort, Kentucky, this 20th day of June, 1995.

PUBLIC SERVICE COMMISSION

For the Commission

ATTEST:

Executive Director
